## Summary

As a beginner MERN Stack developer, I am passionate about building robust and scalable web applications. I have experience with JavaScript, HTML, CSS, and the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in React.js for front-end development, MongoDB for data management, and Node.js with Express.js for server-side APIs. Proficient in modern tools like Redux, Axios, and Mongoose. Familiar with Git and Agile methodologies. Quick learner, detail-oriented, and strong problem-solving skills. Eager to contribute to a dynamic team and enhance my MERN Stack development skills.

## Experience

### Internship Trainee

Interns Pakistan

Mar 2023 - Present (4 months)

As a Front End Development Intern, I had the opportunity to gain hands-on experience in building dynamic and user-friendly web interfaces. I collaborated with a talented team of developers to create visually appealing and responsive websites using the latest front-end technologies and frameworks.

During my internship, I honed my skills in HTML, CSS, and JavaScript, applying them to develop engaging and interactive user interfaces. I learned how to optimize websites for speed and performance, ensuring a seamless user experience across different devices and browsers.

### Computer Operator

ABM Computer

Aug 2017 - Jun 2023 (5 years 11 months)
